At the time of the destruction of the infirmary by fire, it was currently reported that a woman had perished in the fiames. At the time, we made numeroul inquiries in order to ascertish the truth or falsity of the report, but did not succeed in eliciting anything conclusive, and we, therefore, it common with the public came to the conclusion that there was no truth in the report. Yesterday, however, we learned at the infirmary that a few days since, workmen, while engaged in removing the rubbish caused by the fire, discovered a portion of the charred and blackened sones of the unfortunate victim of the fames. They were gathered togather and placed in the hospital, where they now remain, awaiting interment. The name of the woman was Mrs. — Huskey, for four years past an immate of the Infirmary, supported at Government expense.

Extensive Hospital Buildings.

Extensive Hospital Buildings.

The Government is making ample preparations for the accommodation of the sick and wounded soldiers, in the eraction of two immense hospitals—one of them located in Stone's field, northeast of Columbian College, and the field profiles of the Gity Hall. Both hospitals are constructed on the same plan, farnished by P. B. Wight, Eug., of New York, under the approval of the Sanitary Commission.

Each hospital will cover about an acre and a haif of ground, and are of frame work. The description of the one in the Infirmary square will answer for both. It will contain ten wards, besides a kitchen and administration building, and will be capable of accommodating upwards of four hundred patients.

The administration building will be two sto rice high, eighty feet long, and fifty-two feet is de-fronting or Extrest and will be connected with the rear building by an immense corridor 175 feet long; the wards, of which there will be ten—ave on each side of the corridor—will be separated from the main building, with a yard twenty-seven feet wide between them, to admit of light and free vestilation. Each of the wards will be eighty-four feet long and twenty-sight feet wide, and will be furnished with both gas and water. The surgery room will be at the nor h ead of the corridor, and will be three hundred and eighty feet long and two hundred wide. Each of the buildings rests on piles, and will be elevated about three feet from the ground, so as to scalue the dampness.

John C. Harkness, Eq., and Z. W. Denham, are the gentlemen in sharge of the construction of this mammoth structure. The mechanical execution of the work is intrusted to Mr. Samuel Freas, to whom we are under many obligations for his courtery and kindness in showing us around, and in describing the plan of the buildings. Which, it is expected, will be under cover by the 1st of February.

A guard of nine men have been detailed by General Sykes, to guard the buildings, day and night, against attempts at incendiarism.

Military Freeution. Private Michael Lanahan, of the Becond Infantry United States army, was yesterday hung in accordance with the sentence of the court martial in his case, on the common between O and P streets, near Vermont avenue, for the wiltul murder of his superior officer, Sergeant Brennan, of company A, Second Infantry, at Georgetown, D. C., on the 27th of October last. The cause is thus referred to in the order for execution:

Georgetown, D. C., on the 27th of October last. The cause is thus referred to in the order for execution:

"The prisoner was a priva'e of the guard, and on the first relief. When the hour came for posting that relief, Lanahan was not at the guardhouse. As Bergaant Brennan was about posting another man in the place of Lanahan, the latter came to the guardhouse. The sergeant turned sharply towards him, told him he was never in place when wanted, slapped him, and told him to get his gun and go on post. Lanahan got his gun and took his place on post. Sergeant Brennan had proviously given Lanahan a half hour of extra guard duty. A very few minutes alterwards, as Brennan was passing by his post, the accused fred and killed him. The proof is clear that he did this in astification of the grudge he bore towards the deceased, not only for the blow given him at the guardhouse a few minutes before, but for all sorres, which he mentioned in his statement to the court.

It is very reprehensible for a commissioned or non commissioned officer to strike a soldier, except when it is absolutely necessary to repress disorder. It is never allowable as a punishment for an offenne. But for a soldier, because of being struck, to shoot his immediate superior, is at war with every principle of subordination.

It was in evidence that it was not customary for sandance of hims the him the

ordination.

It was in evidence that it was not customary for sentinels at Georgetown to have their arms loaded. The prisoner must have loaded his musket for the purpose of carrying out his vindictive design against his sergeant. The homicide in this case seems to lack none of the features which distinguish murder from simple manulauchter."

One of the American missionaries murdered by the insurgents in their attack on the city of Cheefoo, was a graduate of Columbian College, of this city, from which he graduated in 1859; He was a native of Morgantown, Virginia, and a nephew of General Holmes, at present in command of the rebei forces on the Lower Potomac. After leaving college, Mr. Holmes removed to Cumberland, Maryland, where, for a short time, he was stationed in a ministerial capacity, and where he married a Miss Little, formerly a resident of Washington. In the latter part of 1859, he was sent to China, by the Baptist Missionary Society, to preach the Gapel in that country. He was much esteemed and beleved by all who knew him, and his numerous friends in this city will be pained to learn of his cruel, untimely death.

Criminal Court.

Alfred Howard, indicted for the larceny of sixty dollars in gold from Robert Newman on the 4th of October last, was brought in guilty, and sentenced by the court to two years and six months' imprisonment in the penitentiary. Edward Harmon, indicted for the larceny of two pistols, valued at \$25, from Lieutenants Robinson and Matson, in the month of September last, was found guilty. Sentenced to two years and six months' imprisonment in the penitentiary.

Thomas Long, convicted on Saturday of an assault and battery on Patrick Crogan, was sentenced to pay a fine of \$12 and costs.

Augnatus Mist en, found guilty of assault and battery upon bis father-in-law, was sentenced to pay a fine of \$2 and costs.

Death Resulting from Carelesenese Handling Fire-arms. Beath Resulting from Carelessness in Handilug Fire-arms.

Short Hogg, a young lad of about thirteen years of age, died on Saturday from the effects of a pixte wound in the right breast, received on New Year's Day in a house on Capitel Hill. The boy, at the time of the secident, was employed in the Tolegranh Office as deliverer of dispatches. On New Year's Day he visited the house of one of his acquaintances, where, laying on a table, was a loaded pistol. Somehow or another, in handling the pistol, it went off, the ball entering his right breast. He lingered on until Saturday, when death relieved him of his sufferings. A day or two previous to meeting with the accident, in conversation with a young companion, he made the remark, that if he ever was shot, he wished to be killed immediately, so as not to linger in pain and suffering, or, perhaps, become a cripple for life. Little did the little fellow think, at the time of the remark, that he was so soon to meet death in the manner he most dreaded.

Between six and seven o'clock, last evening, a stable and several out-buildings, situated in the rear of Pfifer's restaurant, on Pennsylvania avenue, between Twenty first and Twenty-second streets, in the First ward, were consumed by fire. The Union Pire Company were on the ground with their apparatus, and succeeded in saving the adjoining property from destruction. Captain Callan's company, Second District volunteers, and companies P. I. and K. of the Second Regiment United States Infantry, were also on the ground, and rendered efficient aid in extinguishing and preventing the apread of the flames.

One of the most atroofous and waston acts of crueity which we have ever heard of, opoursed on the Avenue, near Tenth street, yeaterday afternoon. A colored man, dressed in a pair of military pants, driving a two-horse team along the Avenue, was summoned by one of the mounted patrol guard to halt and show his pass. Whether or not the colored man a cheyed the summons, we could not ascertain, but the guard made a savage cut at him with his sabre, which, fortunately for the driver, missed its aim, and, instead of descending upon his head, fell upon that of the horse inflicting a frightful gash above the eye of the animal, which was left hanging by a more thread of ekin. The colored man, who was riding on the boals of the horse, quitted his sent instanter, and ring, for dear life, as fast as his legs could carry him. The human brute then thrust his sabre into the side of the other horse, injuring the animal staveverely that it will not live. He was then arrested by two of the Matropolitan Pollos, and taken to the guardhouse, and delivered over to the military authorities. The man belongs to the Fourth United States cavalry, and was un the the influence of liquor at the time.

First Snow. An Act of Rost Wanton Cruelty.

Pirk snow.

Our juveniles were gladdened yesterday morning by the sight of a very respectable quantity of snow upon he ground. As it was the first snow of any densequence that has fallen his winter, they smbraced the opperatuality of sleighing, to their hearts' content, the sidewalks being full if youngsters dragging along their sleds. On seeing their ployous countensuces and witnessing their hilarious mirth, we could not help wishing we were a "boy again."

Insecure Buildings.

Insecure Hulldings.

We have cliste had occasion to speak of the insecure manner in which buildings have been erected in this city. One case in particular, on Estreet, was mentioned last week. It would have taught the builders wisdom; but it appears otherwise. Passing by the place yesterday, we saw them reconstructing the fallen building in the same filmsy manner that characterized the original. If the builders have no regard for human life, the police should interfere and compel them to obey the law.

Correction.

In an article in our issue of yesterday, entitled "An Accident," our reporter was misinformed, and did great injustice to the family of Mr. Fleming. Mrs. Fleming was very anxious to have the boy brought into the house, but the physician desired to convey him to a place maps suited to the operation of amputation. She, in connection with the family, manifested the deepest interest in his welfare; and we regret that the lady should have been made the object of censure.

Committed for Stealing.

Isabella George, (colored.) yesterday made oath before Justice Ferguson that she believed that Catharine Lansil, (also colored.) had surreptitiously conveyed from her house various articles of jewelry and a sum of meney, some time in October last. The magistrate committed Catharine to jail for a further hearing.

Discharged.

A. T. Ford, mastersmate on board of the Pensacola, brought on from New York a few days ago, on the charge of taking letters belonging to officers on board of the Pensacola, and who was committed to jail by Justice Walter for a further hearing, yesterday morning, after an investigation before the above magistrate was discharged from oustody, he proving an althi.
